

# Liberate the R coder

And empower the non coder

# Roles

**Coder**

**Non Coder**

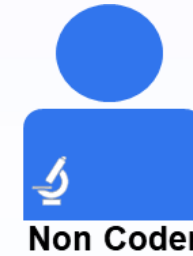

# Challenges

Coder

- Innovate
- Supervise methodologies
- Educate
- Zero deployment

**Liberate**

Non Coder

- Get control
- Add meta annotation
- Visualize and interact
- Handle large size

**Empower**

# Cool, you made an R package

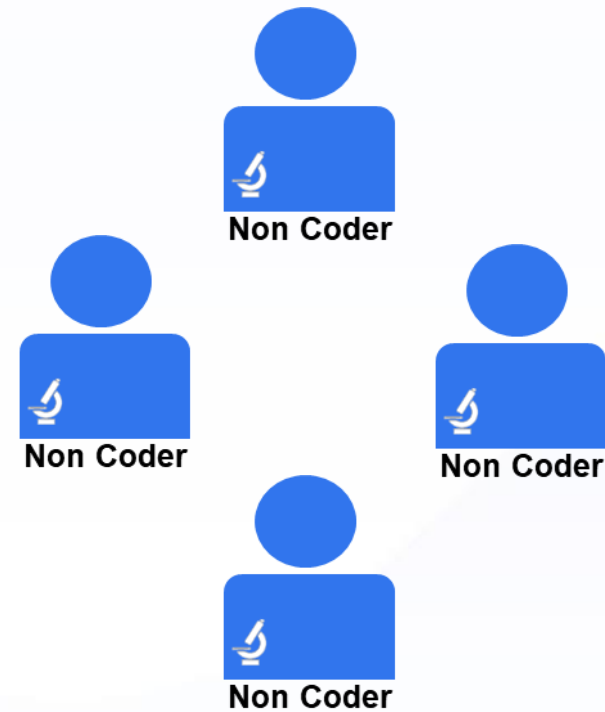

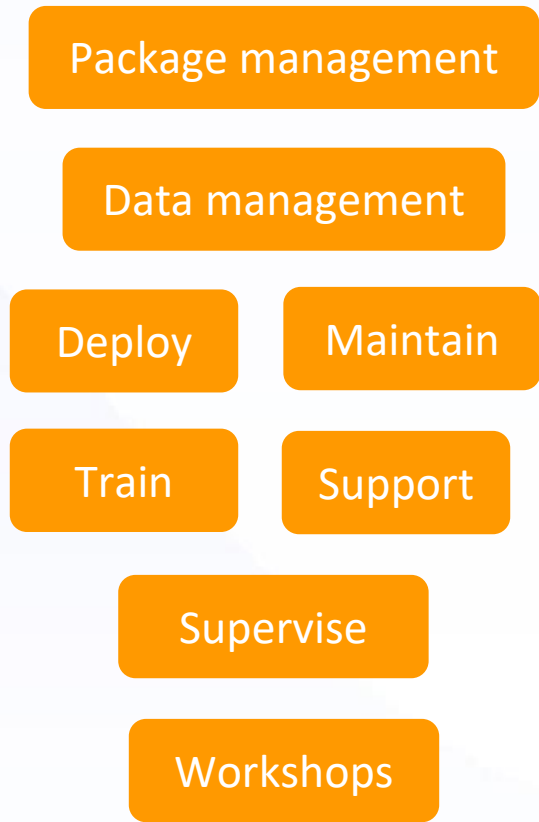

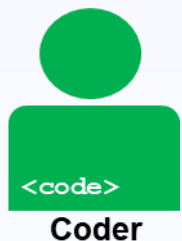

My Cool  
and  
Useful  
R package

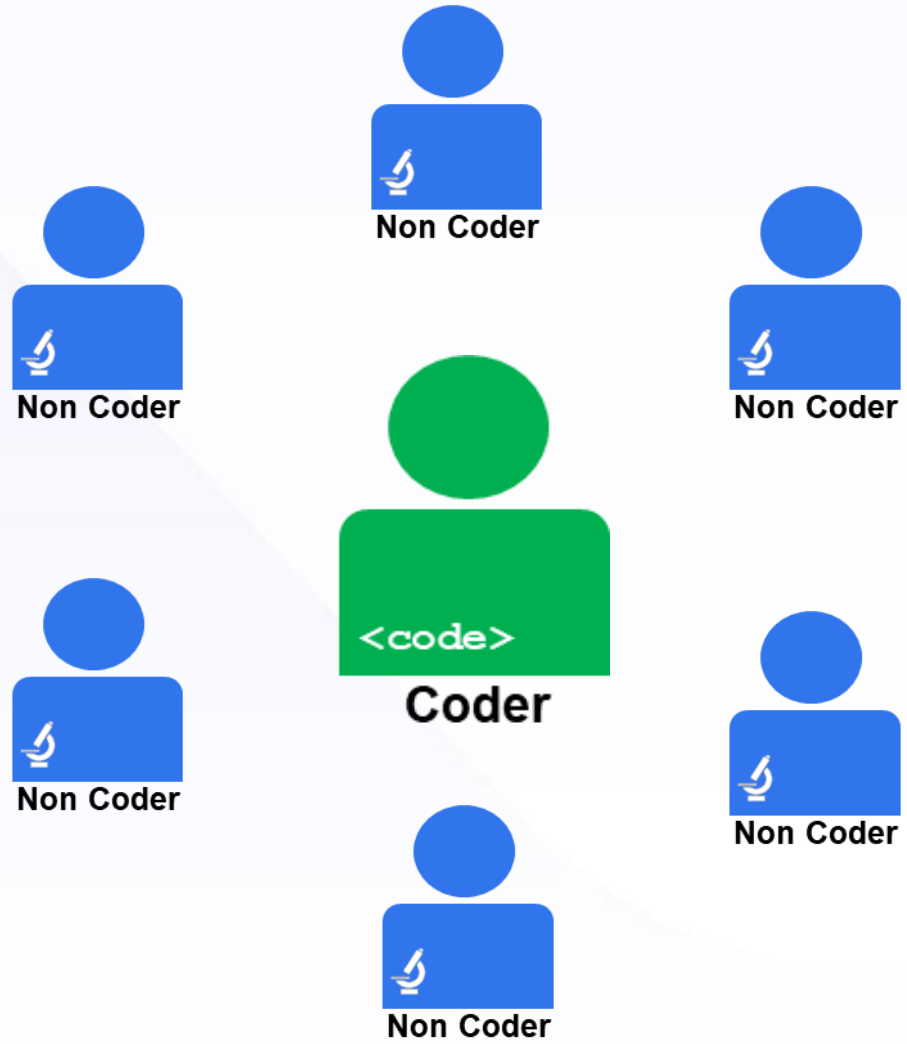

# Cool, you made an R package

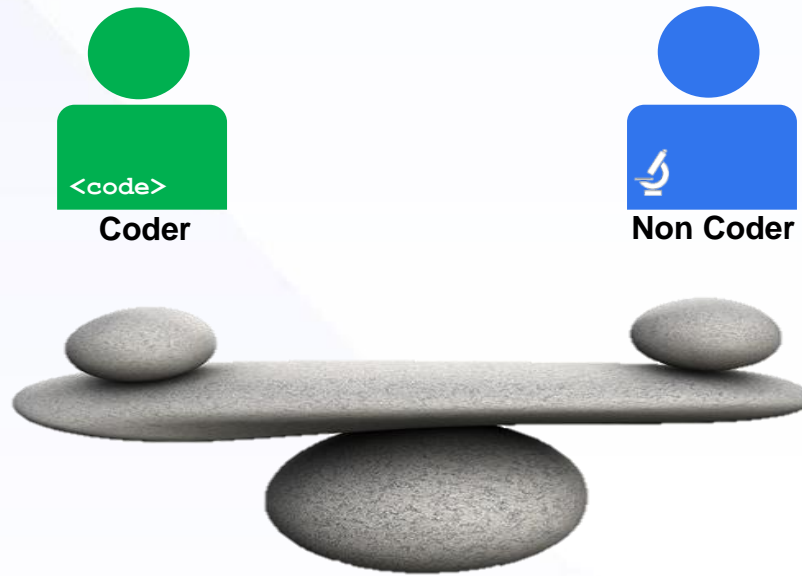

# Ratio 1:N

# Harmony

**Tercen is a...**

LondonR

**Visualization and Relational layer on top of R**

# Use cases

## Large excel

**Large Data** for interactive visualization, exporation

## Shiny App

**Deployment** of a **Shiny App** or any **WebApp**

## Meta Annotation

**Sample annotation, gene annotation** visualization

## Working as a Team/Group

**Multisite** data analysis

# Tercen allows...

- **non coders to powerfully interact with data**
- **coders to simplify the R code and R deployment**

# Liberate yourself

LondonR

# We want R coders and Use cases

LondonR

# Learn, share and analyse data together.

No coding needed!

Let Tercen take care of it.
